

ACCESSING TELFER TALENT

The Telfer School of Management at the University of Ottawa and its student-funded Career Centre provide services that build, develop and maintain successful partnerships between students, alumni and employers by creating employment opportunities, enhancing student value, and facilitating the employers' recruitment process.

Full-Time Employment

The Telfer School of Management Career Centre offers customized recruitment solutions and access to our diverse and professional Bachelor of Commerce and MBA students. We offer various channels for your organization to easily get involved and recruit on campus.

Post a Job

Looking for a talented BCom or MBA graduate to join your team? Showcase your job opportunities to Telfer students! Our Telfer job board is exclusively reserved for Telfer School of Management students.

On-Campus Interviews

To simplify your organization's recruitment, the Career Centre provides private interview rooms on campus, as well as full coordination of and logistical support for the interview process.

Networking Events & Conventions

Looking to maximize your impact by connecting with a large number of students at a single event?

Company Information Sessions and Webinars

If you are looking to build brand awareness and recruit top talent for your organization, an information session on your company, given in person or via conferencing software, is an excellent way to connect with students.

Workshops

Increase your visibility on campus and gain access to a captive audience while facilitating a workshop and sharing your expertise on a topic that is aimed at contributing to the success of tomorrow's business leaders. Potential topics include: resumé writing, interview skills and networking.

MBA Résumé Book

Select the right talent to advance your organization from our pool of graduating MBAs by viewing our MBA Résumé Book and discussing other opportunities to engage with MBA graduates with our Career Centre.

CO-OP Programs at Telfer

Gain year-round access to well-motivated, qualified employees from our BCom program for 13-16 week full-time terms.

Students begin their 1st work term after completing 2 years of study. This ensures you receive a well-trained and productive employee. Work terms alternate with 4 month study terms. The CO-OP program is optional, and students are admitted according to academic achievement. They are closely monitored throughout the academic and work terms, thereby ensuring our employers benefit from the best quality students.

CONNECTS YOU TO WHAT MATTERS

Internship Programs

Our undergraduate and graduate internship programs provide organizations access to motivated and talented candidates.

Connexions Program (unpaid)

BCom students work within an organization for a minimum of 7 hours a week for a 12-week period during the summer, fall or winter semester. They are not paid for their work; the objective is to gain work experience.

Telfer BCom Internship Program (paid)

This paid Internship program enables organizations to recruit highly qualified students in order to train them over multiple work terms with the opportunity to incorporate them to full-time employment upon graduation. By the time they graduate, the interns will have demonstrated their ability to perform and adapt to the organization's culture.

MBA Internship

Gain access to motivated and talented candidates from our MBA program. By taking on an intern, you will get a fresh perspective on projects in the fields of market development, process improvement, and strategic process review, among many others. Interns can work part time from January to July, or full time from September to December.

MHA Residencies

Healthcare executives (preceptors) are matched with Master of Health Administration (MHA) candidates and serve as their professional mentors. MHA Candidates spend four months gaining practical health care management experience in a dynamic healthcare setting and complete valuable projects that help them advance their career goals.

Master of Science (MSc) Internships

Gain access to motivated and talented candidates from our MSc in Management and MSc in Health Systems programs to provide evidence-based strategic insights to guide organizations in their daily operations, or take on structured research projects.

Mentorship Programs

Our various mentorship programs enhance the student experience by giving students an opportunity to interact with accomplished business professionals.

International Career Mentorship Program

The International Career Mentorship Program connects international students with industry leaders who help them to prepare for a career in Canada.

Profession of Management Consulting Program

Students eager to become consultants are selected to participate in our Profession of Management Consulting Program (PMCP). Opportunities include delivering case simulations as a team, practice interviews, various workshops or becoming a mentor.

Capital Markets Mentorship Program

The Telfer Capital Markets Mentorship Program (CMMP) is a three-year development program that gives high-performing finance students exceptional learning opportunities to help them launch a career in the field of finance.

Executive Mentorship Program

The Executive Mentorship program connects senior BCom students with mentoring opportunities from industry executives, by establishing a relationship between a student and a professional that provides informal guidance, networking opportunities, and ideas-sharing.

MBA Mentorship program

This program provides MBA students with the opportunity to interact with accomplished business professionals and seek advice regarding their career path. Selected candidates are matched with key professionals from the industry for three mentorship meetings.

Academic Projects

MBA

Gain access to motivated and talented MBA candidates in addressing real-time organizational needs and challenges. Available for English and French MBA programs.

The MBA Consulting Project places students at the centre of a remarkable and practical learning experience. Students are given the opportunity to apply knowledge and skills in addressing an issue of significant importance to an organization, all under the supervision of a Telfer School of Management professor and the mentorship of a professional management consultant.

Executive MBA

Gain access to motivated and talented Executive MBA candidates for addressing real business challenges and opportunities in short timelines. One of the core components of the Telfer Executive MBA Program is the integration of six business consulting projects within the curriculum. Each project requires candidates to work as a business consultant with client organizations.
