

## Submission of the Telfer PhD Thesis proposal for the evaluation:

The thesis proposal, prepared under the direction of the thesis supervisor, must be defended to the satisfaction of the Thesis Advisory Committee (TAC). The proposal must normally be successfully completed by the end of the seventh term. In the event of failure, the proposal can be resubmitted and defended the following term at the latest. A second failure leads to withdrawal from the program. The proposal must be successfully defended before submitting it to the Research Ethics Board (if required) and before undertaking any independent data collection.

The comprehensive examination (MGT 9997) must be passed before the student can propose his or her thesis.

Students will normally enroll for MGT 9998: Thesis proposal in the fall or winter of their third year of the PhD program, with the expectation of defending their proposal by end of the winter term of year 3 (end of April). Students should submit their thesis proposal to their committee by April 1. They will defend their proposal within a month of submitting it.

In extraordinary circumstances, if students need to register for MGT 9998 more than once, the deadlines to submit their proposal for evaluation is:

Summer: August 1

Fall: December 1

Winter: April 1

### **Please note:**

1. The student is responsible for the distribution of the proposal after receiving approval from the supervisor.
2. The supervisor chairs the proposal defense and is responsible for making the proposal defense arrangements (finding appropriate time and place).
3. The supervisor is responsible for the submission of the proposal evaluation by submitting the Proposition-Proposal form available at the Graduate Office (see next two pages).
4. The number of examiners (in addition to supervisor and co-supervisor) should be minimum two, and these individuals are members of the TAC.
4. The Academic Specialists enter the grade of Pass/Fail once the evaluation is received (if applicable after corrections to thesis proposal are made.)
5. The Academic Specialists will add a milestone as required to track thesis proposal corrections.
