Telfer School of Management

## Honours BCom with Specialization in Management Information Systems

Available in co-op.

Our curriculum combines the study of management principles with sound training in computer science. Offered in collaboration with the School of Information Technology and Engineering (SITE) of the Faculty of Engineering, this challenging program covers technical areas such as the verification, control and protection of integrated information systems, as well as core subjects such as management science, business administration and mathematics.

### SAMPLE COURSES

Business and technology forecasting  
Business data mining  
Electronic business  
Information systems analysis and design  
Project management  
Business process redesign  
Business telecommunication and data networks

### CAREER OPPORTUNITIES

Business analyst  
Computer programmer  
Information and process analyst  
Manager of business systems  
Supply-chain systems consultant  
Systems consultant

## OUR STUDENTS MAKE THE NEWS

The management information systems team won first place at the national Inter-Collegiate Business Competition in 2008. In addition, the University of Ottawa brought home 14 trophies, including the second place in management information systems, at the *Jeux du Commerce*, an Eastern Canadian university case competition.

## STUDENT ACTIVITIES

The Telfer School of Management not only offers you various competitions, clubs and associations such as the Management Information Systems Association, but also provides you with valuable networking opportunities.

Matthew Ho

GRADUATED IN 2008

Mississauga, Ontario

### DESCRIBE YOUR MOST EXCITING UNIVERSITY EXPERIENCE.

Getting involved in school clubs and activities, such as the Entrepreneurs' Club, Management Information Systems Association and Managers Without Borders.

### WHY DID YOU CHOOSE THE UNIVERSITY OF OTTAWA?

It offered a great balance between academics and a social life. The University of Ottawa's Telfer School of Management has received the AACSB\* accreditation which represents the highest standard of achievement for business schools worldwide. Socially, Ottawa is a very diverse city with a magnitude of different cultures, languages and personalities.

### WHAT DID YOU LIKE MOST ABOUT YOUR PROGRAM OF STUDY?

Personally I believe the MIS program is the best-rounded program in the Telfer School of Management. It offers equilibrium between both technical and business skills, which are essential in the dynamic business environment. Also, it offers many opportunities regarding career paths. I truly believe it is the most rewarding program, especially if you are interested in going into IT consulting or project management work.

### WHAT WOULD BE YOUR ADVICE TO FUTURE STUDENTS?

One of the things I would highly recommend to any future students is to get involved! Whether it's sports, volunteering, school clubs, you'll learn so much from the people and you'll find it very rewarding. The Telfer School of Management offers a variety of clubs to accommodate whatever your interests and career paths are. I guarantee you will enjoy your whole university experience even more if you get involved!
